

Cubic

- product card

This modern pergola stands out from the rest of our product range. The cubic construction comes with a retractable awning made from TechProtect fabric which is waterproof, non-flammable, UV resistant and very durable. It is ideal for designers, architects and individual users. The retractable awning allows you to fully control the amount of incoming sunlight. The additional accessories enable the terrace to be used from early spring until late autumn. The sliding glass panels and roller blinds close the Cubic and protect you from inclement weather and excessive sunlight.

Infrared heaters

SPECIFICATION

- Construction made from corrosion resistant extruded aluminium.
- Electric motor control included in the price.
- TechProtect roof fabric - comes as standard (other fabrics available on request).
- Possibility of powder coating in any RAL colour.
- Available in wall-mounted and free-standing version.
- Option of modular connection.
- Construction's wind resistance up to 120 km/h.
- Possibility of installing a fabric visor.
- Option of additional accessories:
 - lighting,
 - glazing,
 - roller blinds (screeners),
 - infrared heaters,
 - wind, solar and rain sensors.

LED lighting - spotlights

LED lighting - LED strip lights, integrated with the gutter

Infrared heaters

power

Infrared heater GRI - controlled by a switch with a LOW GLARE emitter that generates less light, water-tight class IP65, colour: white or black, usually controlled by a wall switcher. For external use.

1,5 kW

Infrared heater GR2 IR - a infrared heater with a built-in infrared receiver, remote control and a LOW GLARE emitter that releases less light. Water-tight class IP65, colour white or black, controlled by an infrared remote control (in set). For external use.

1,5 kW

Additional infrared remote control

Radio receivers for infrared heaters GRI

Somfy RTS receiver

Enables operation of the GRI infrared heater with TELIS remote controls in the on/off range.

For the single infrared heater max. power 2 kW

Somfy RTS MODULIS Receiver

Gri infrared heater can be operated by TELIS MODULIS (recommended) and TELIS remote controls in the on/off range and smooth regulation of heat intensity from 0% to 100%.

For of 1 to 2 infrared heaters of total power 3 kW

SOMFY IO ON/OFF Receiver for 1 infrared heater 2kW

Enables operation of infrared heater Gr1.

For the single infrared heater max. power 2 kW

TELECO ON/OFF Receiver up to 1-2 pcs infrared heater 3kW

Enables operation of infrared heater Gr1.

For of 1 to 2 infrared heaters of total power 3 kW
