

CARAVITA[®]

Exclusive parasols and sun sails

Brochure

The professional quality summer manufacturer

At CARAVITA, you don't get just any parasol, but rather a sturdy and individual shading system in professional quality. Made in Europe.

- **Quality:** High-grade aluminium, reinforced struts and robust acrylic fabric ensure the longevity and wind stability of CARAVITA parasols and sun sails
- **Individuality:** With a choice of more than 60 parasol sizes, 200 frame colours, 150 fabric colours and optional extras such as radiant heaters and LED lighting, everybody is bound to find their perfect shading system.
- **Service & consultation:** Our regional partners are happy to share advice for your project and will take care of assembly of our sun shading products. Find your specialised CARAVITA retailer here:
www.caravita.eu

Sustainability and social responsibility

At Caravita, we attach great importance to the sustainability of our products and our social responsibility as a company. In this way, we want to make our contribution to a just world and a future worth living. To achieve this goal, we not only ensure the longevity of our products through the use of high-grade materials, but also wear parts that can be replaced without any problems. And in production and logistics, we work every day on making our processes even more resource-friendly.

The right sun shading product for every challenge

Min. size
Ø 2.5 m

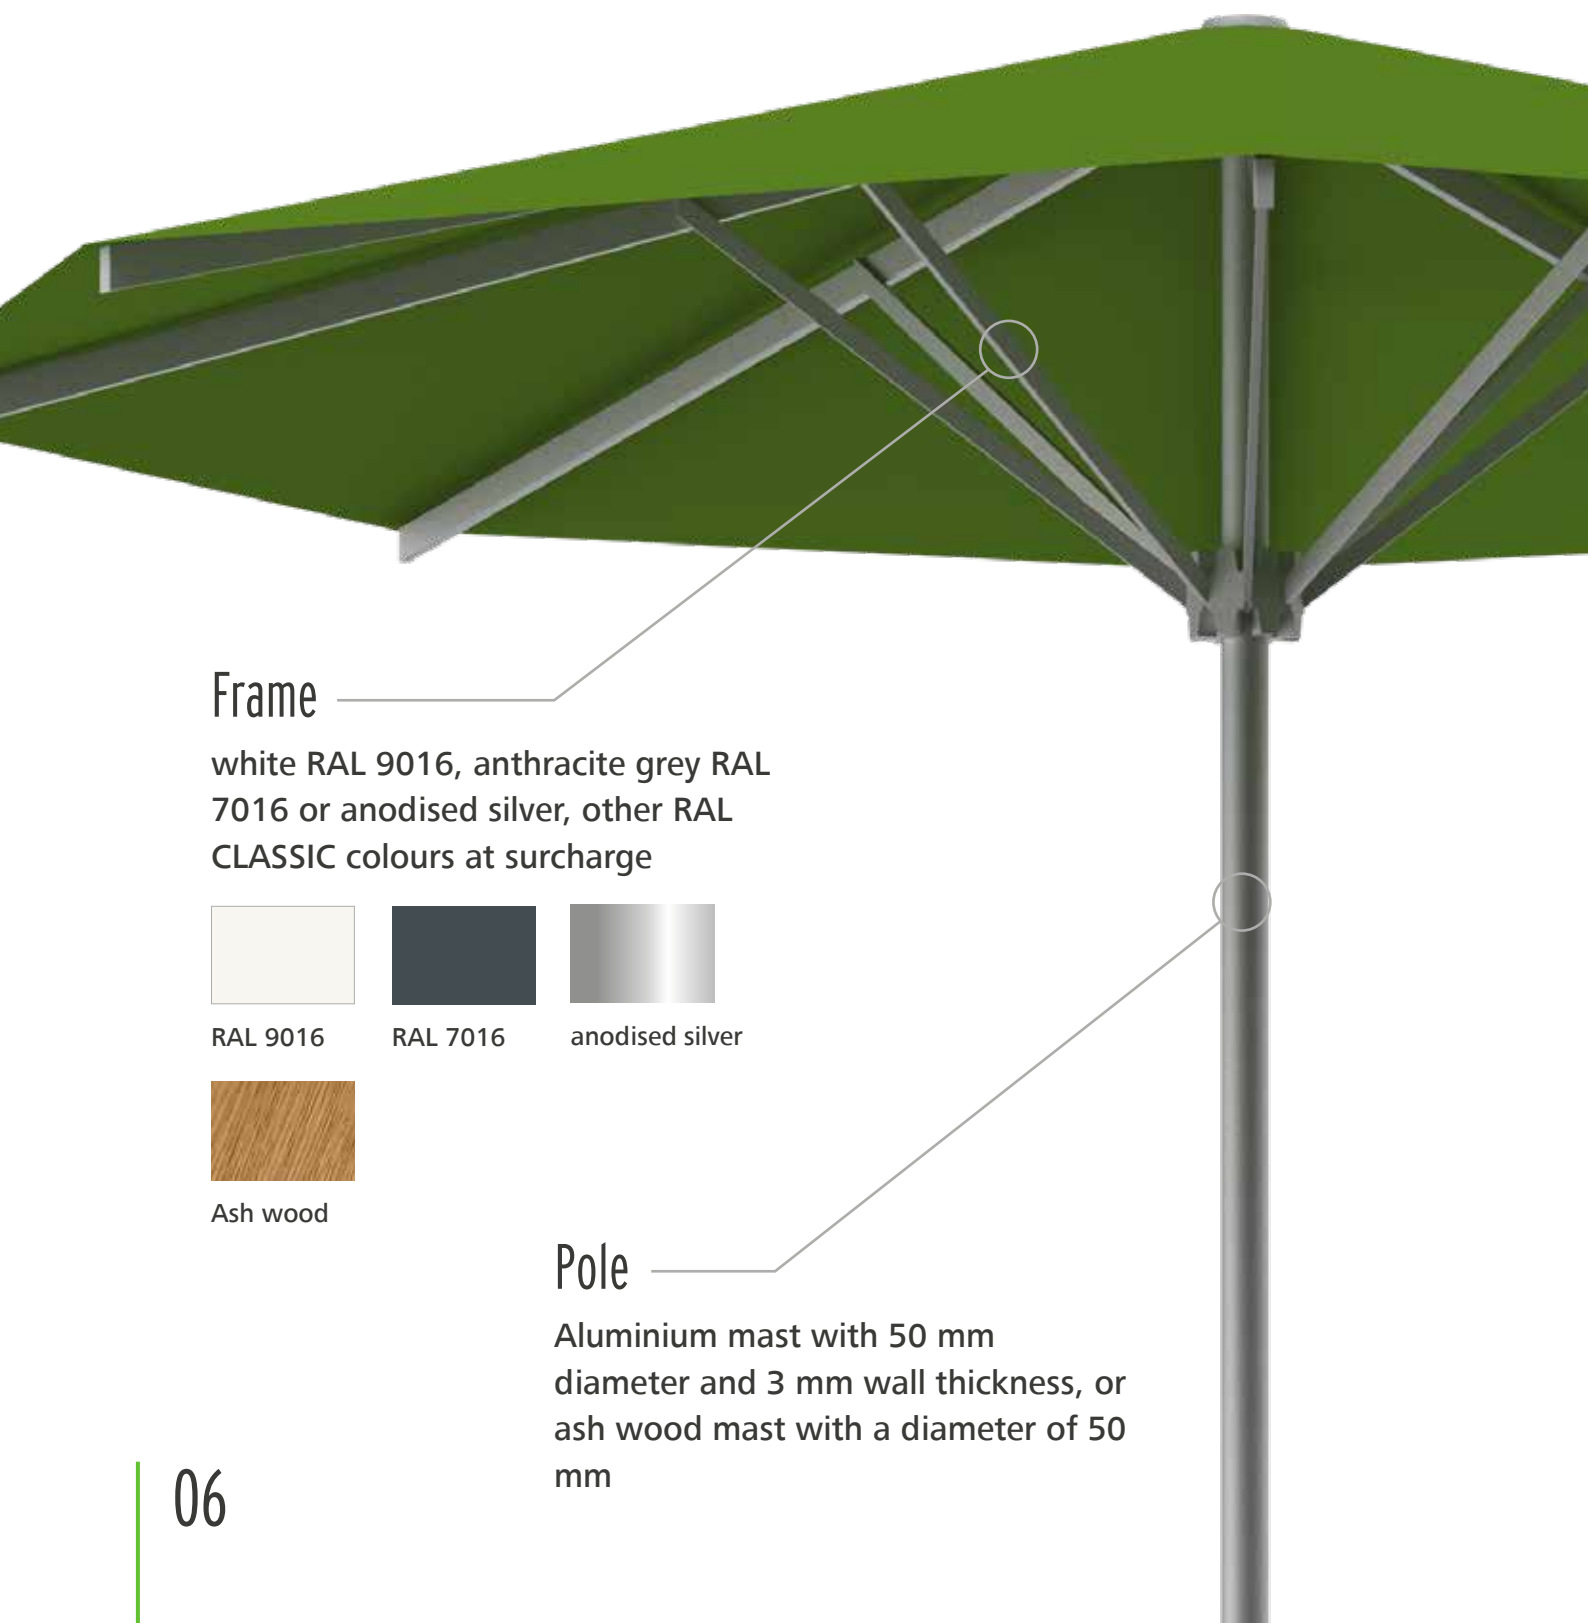

Max. size
Ø 4 m

Max. shading
12.5 m²

PRIMUS

Functional parasol with pulley

Very nimble - Primus impresses with its fast handling and easy-to-use pulley mechanism. This makes the parasol light and mobile. Mobility like this is a must for market stalls and information events, and it is a convenient feature at home on the patio. Primus is available with an aluminium frame, while the Primus Wood variant features a solid ash wood frame.

Frame

white RAL 9016, anthracite grey RAL 7016 or anodised silver, other RAL CLASSIC colours at surcharge

RAL 9016

RAL 7016

anodised silver

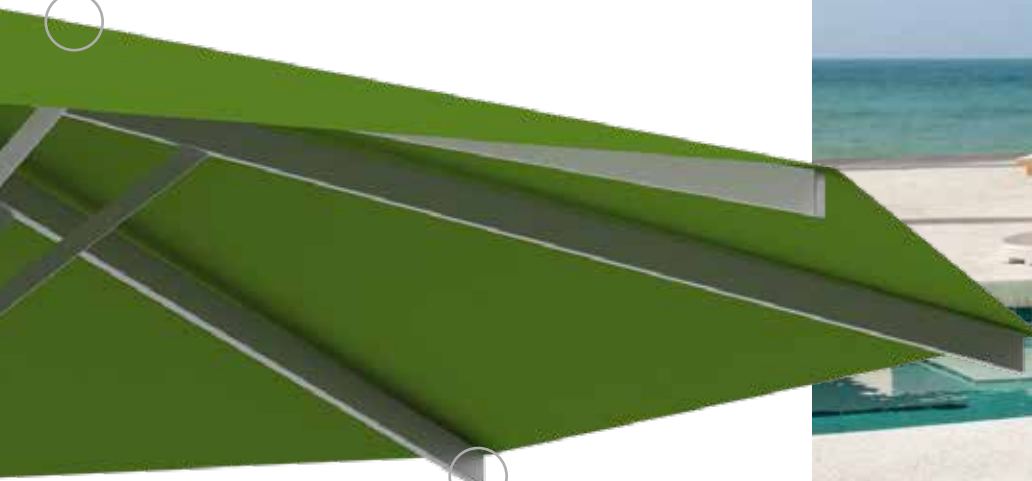

Ash wood

Pole

Aluminium mast with 50 mm diameter and 3 mm wall thickness, or ash wood mast with a diameter of 50 mm

Fabric

Premium parasol fabric in more than 150 colours. 100% acrylic fabric, light-fast and weather-resistant

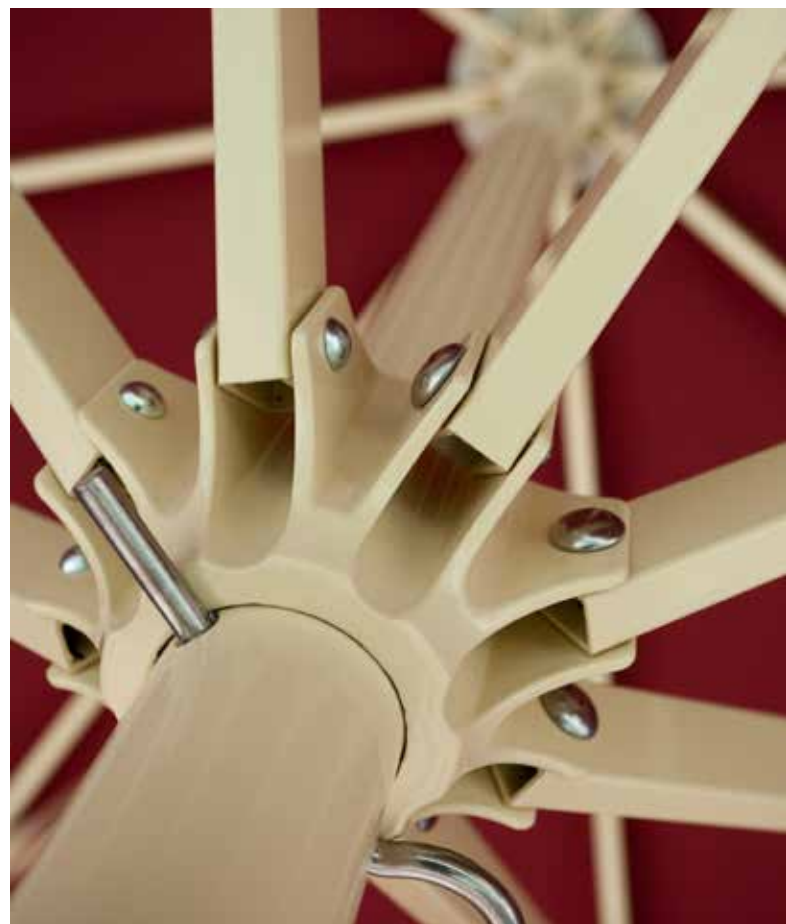

Struts

Struts made of aluminium or wood

Your benefits

- Light and mobile
- Easy-to-use pulley technology
- Choice between aluminium or wooden frame and mast

20 m²

*5-year manufacturer warranty in accordance with www.caravita.eu/warranty

SAMARA

Functional parasol with crank mechanism

With its smooth crank mechanism, this shade provider unfolds easily to its true size to welcome guests underneath. Samara dispenses warm sun rays during the day and ensures comfortable temperatures under the parasol in the evening. Even in the largest size, this visually slight parasol is amazingly easy to use.

Frame

white RAL 9016, anthracite grey RAL 7016 or anodised silver, other RAL CLASSIC colours at surcharge

RAL 9016

RAL 7016

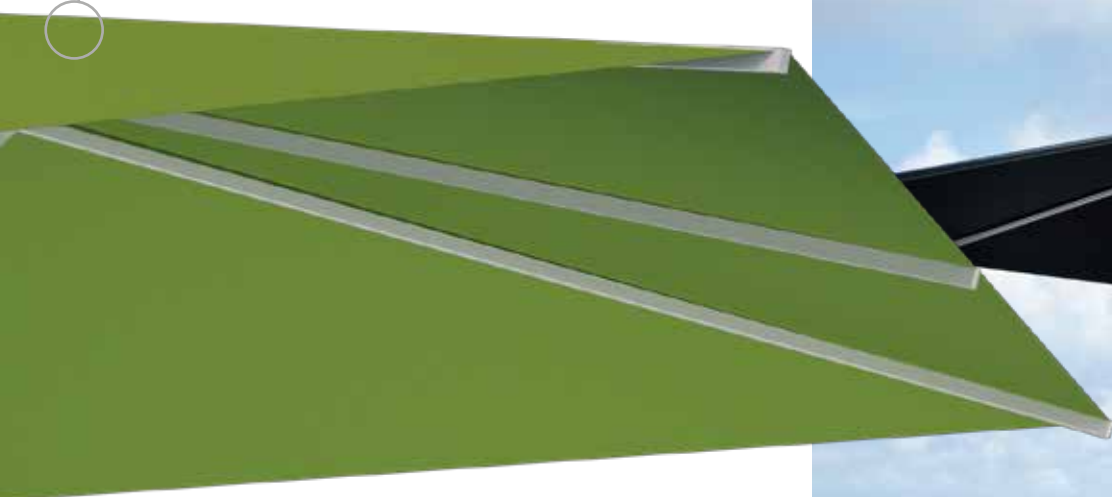

anodised silver

Pole

Aluminium pole with 50 mm diameter and 3 mm wall thickness

Fabric

Premium parasol fabric in more than 150 colours. 100% acrylic fabric, light-fast and weather-resistant

Struts

Max. size
Ø 5 m

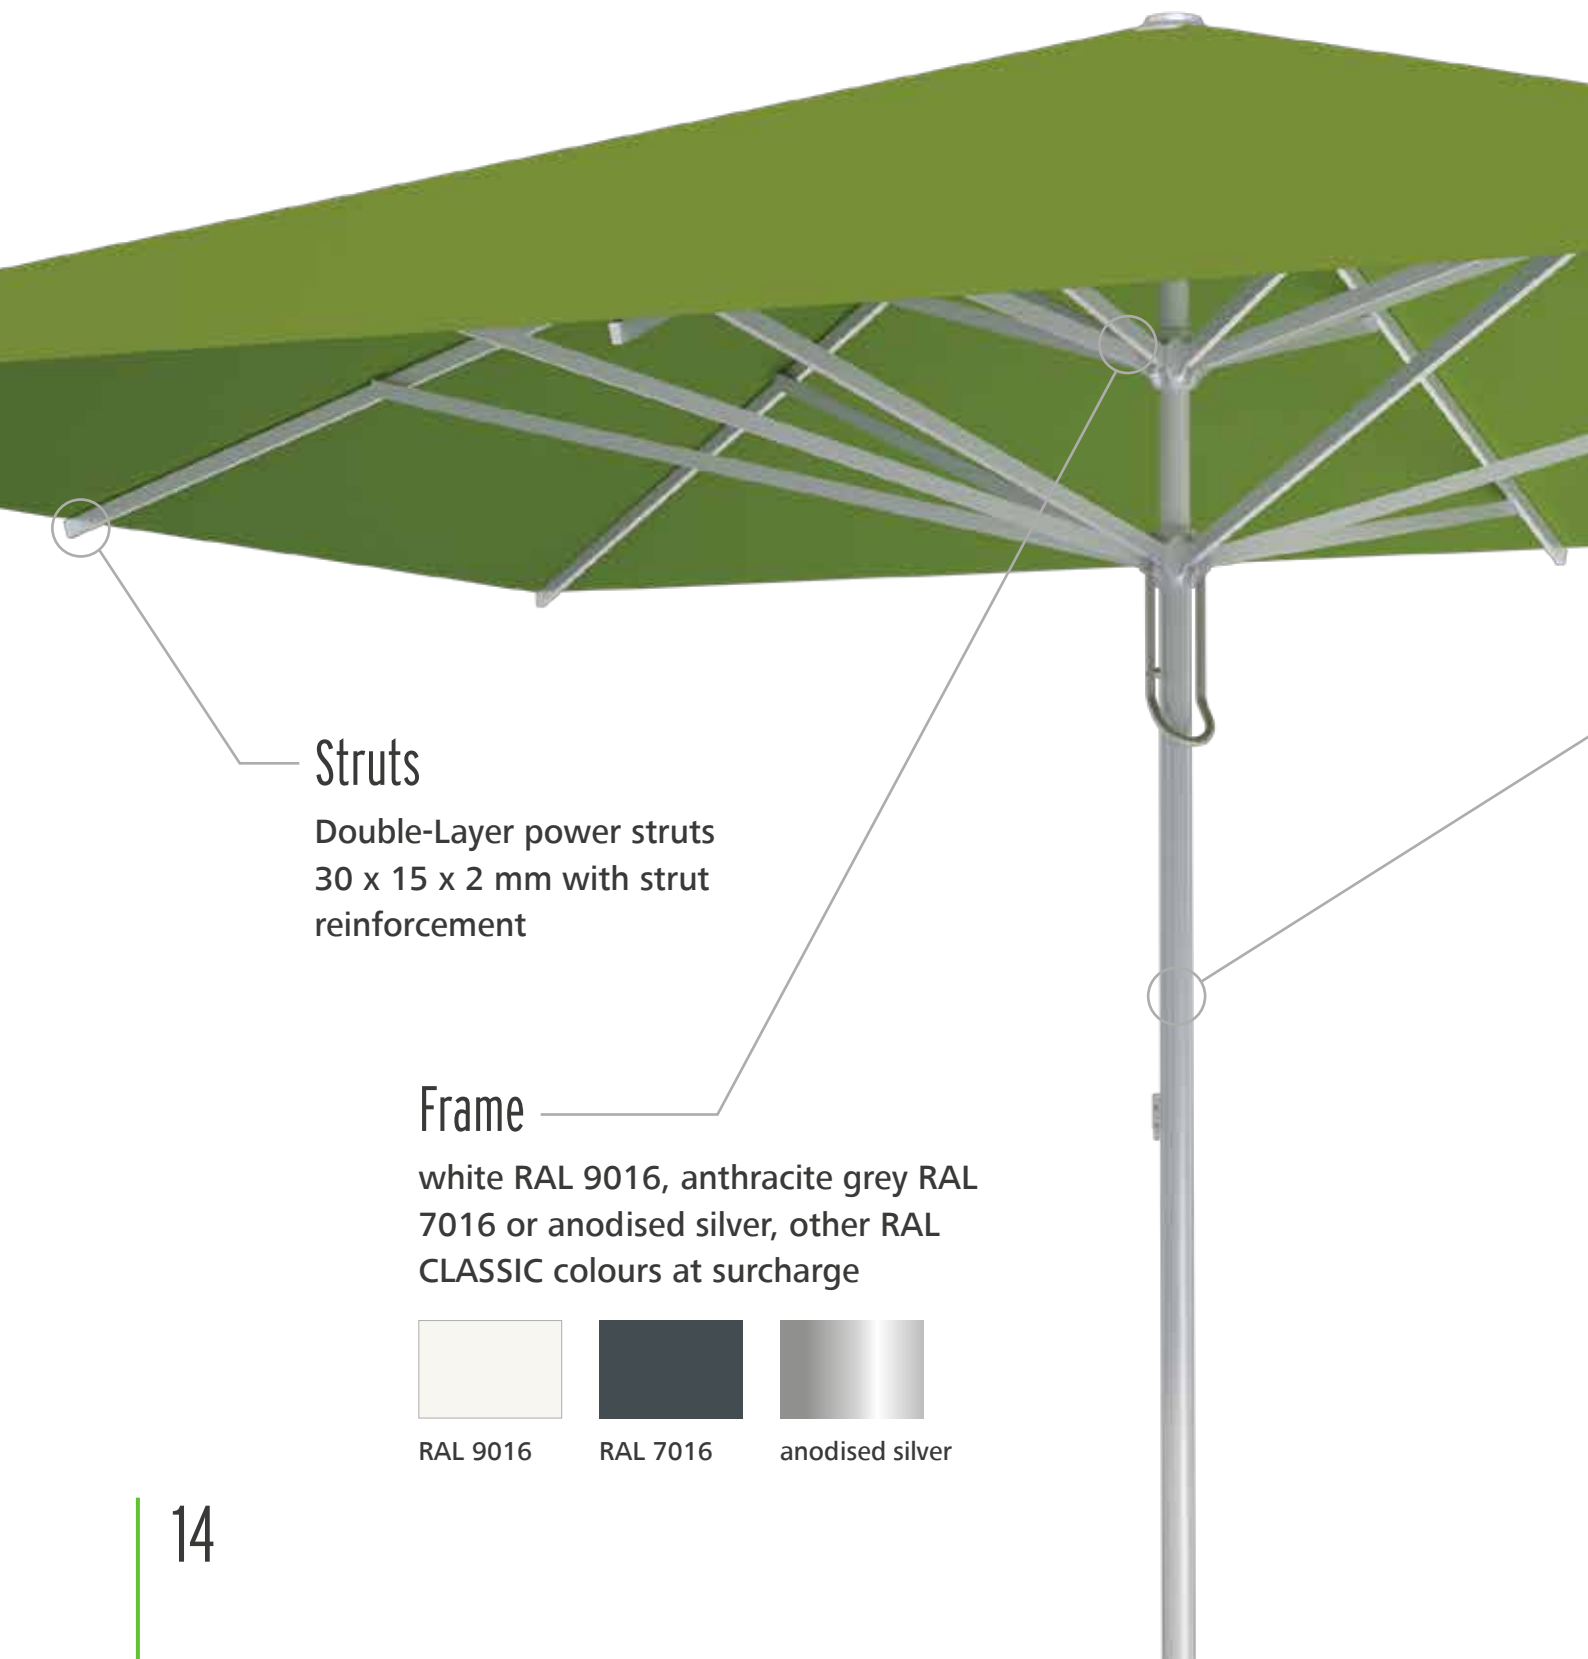

Max. shading
20 m²

*5-year manufacturer warranty in accordance with www.caravita.eu/warranty

SUPREMO

Parasol with Easy-Lift sliding mechanism

It's so easy – with its sophisticated sliding mechanism, the central mast parasol Supremo opens and closes much more easily and quickly than other parasols, even for large spans. This makes Supremo a welcome addition not only to private gardens and restaurants, but also suitable for nursery schools and public institutions.

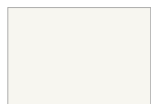

Struts

Double-Layer power struts
30 x 15 x 2 mm with strut
reinforcement

Frame

white RAL 9016, anthracite grey RAL
7016 or anodised silver, other RAL
CLASSIC colours at surcharge

RAL 9016

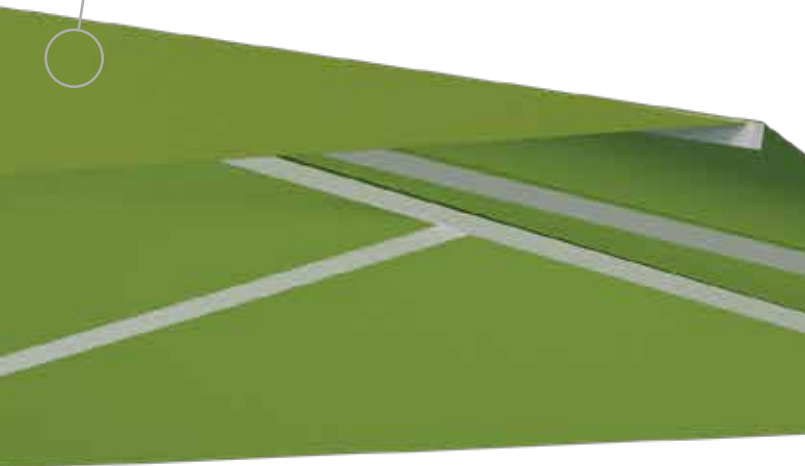

RAL 7016

anodised silver

Fabric

Premium parasol fabric in more than 150 colours. 100% acrylic fabric, light-fast and weather-resistant

Pole

Aluminium pole with 50 mm diameter and 3 mm wall thickness

Min. size
Ø 3.5 m

Max. size
Ø 4 m

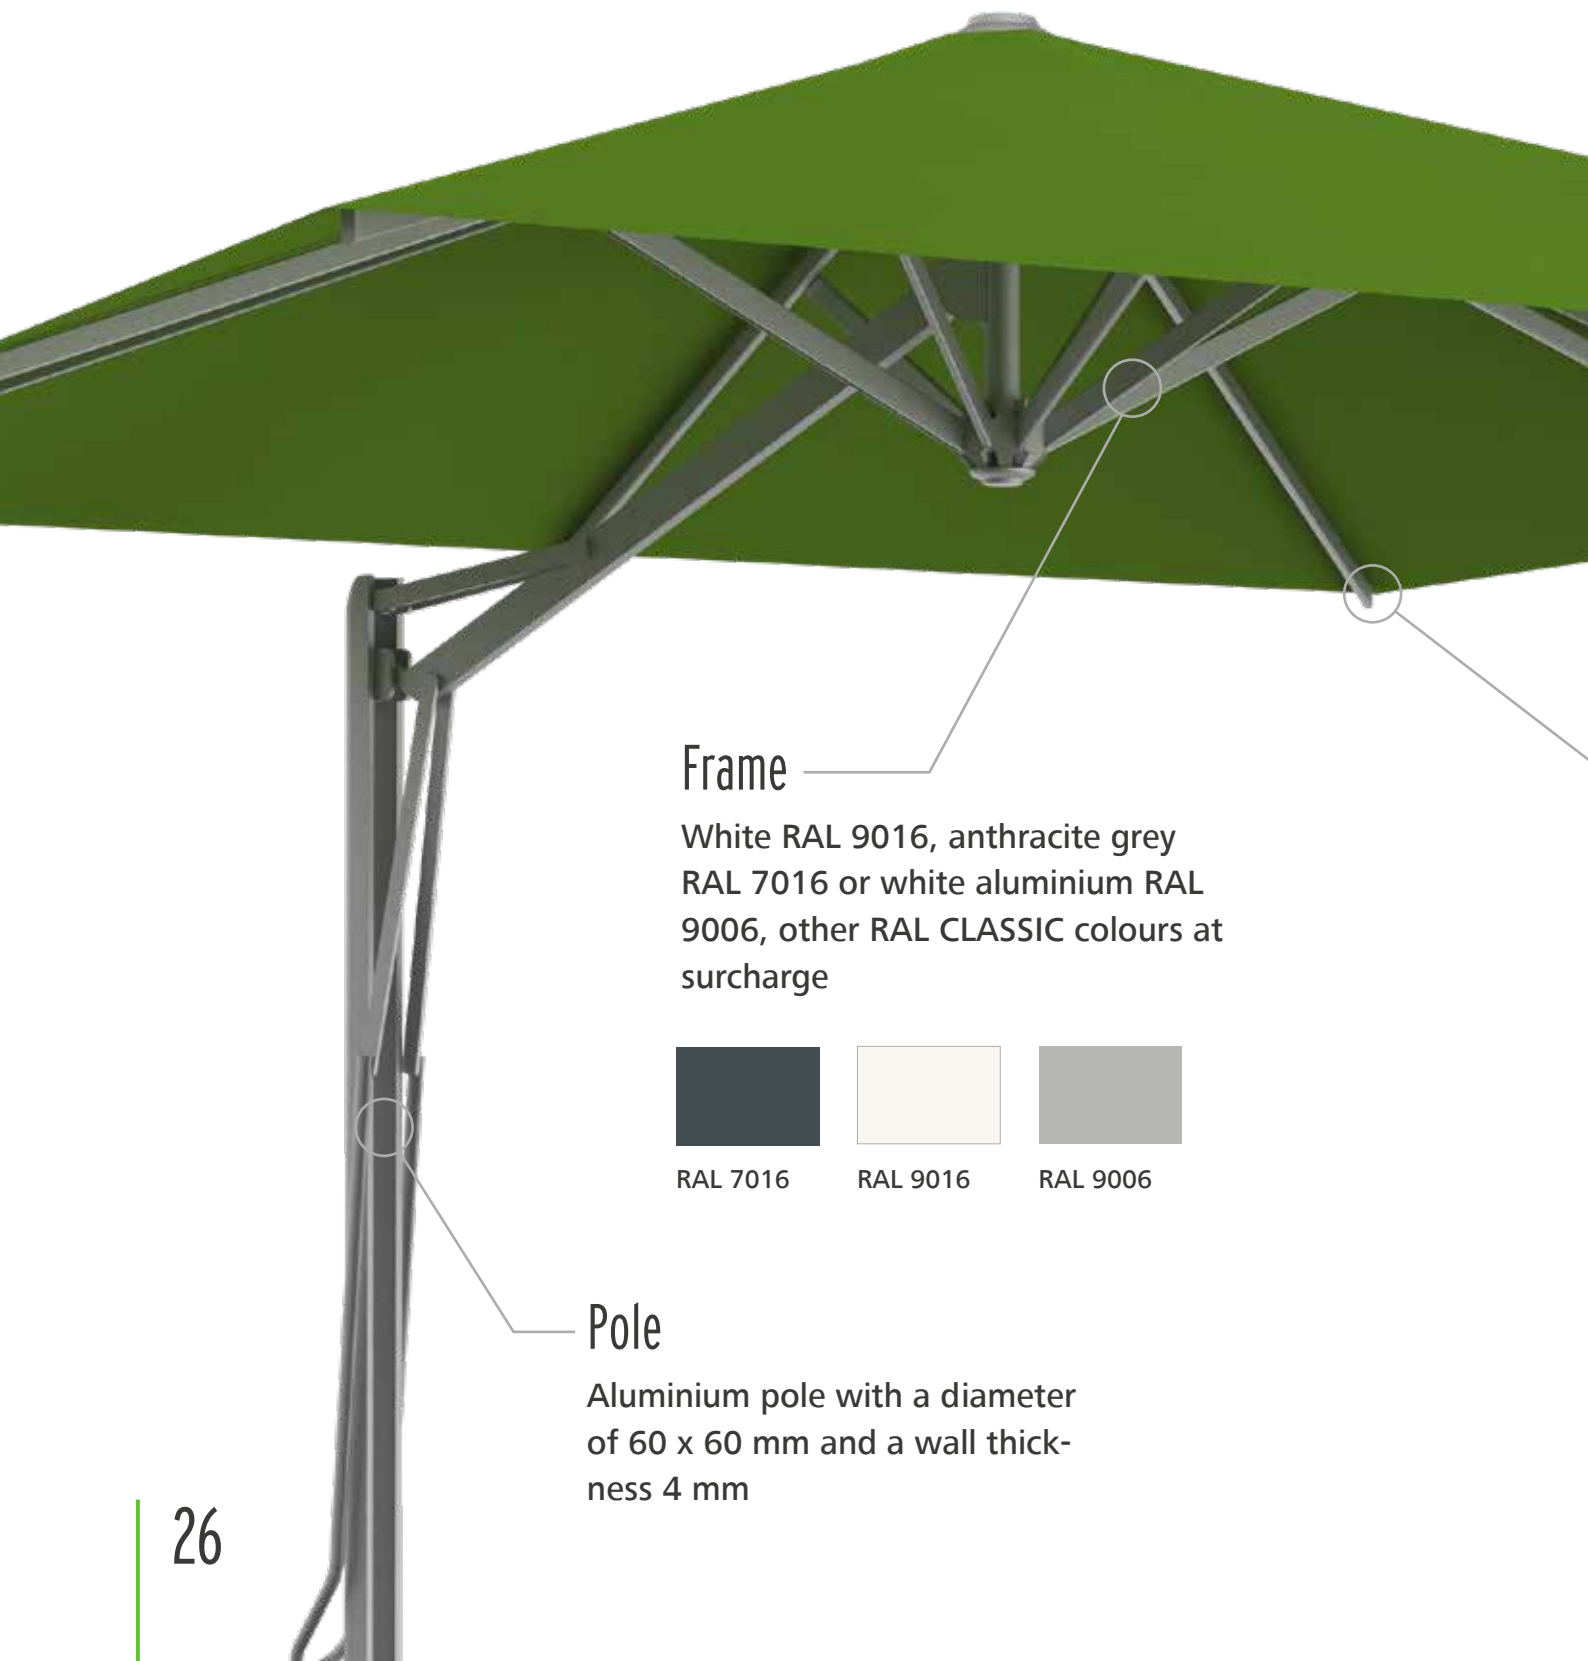

Max. shading
12 m²

*5-year manufacturer warranty in accordance with www.caravita.eu/warranty

BELVEDERE

Cantilever parasol with Easy-Flap system

Belvedere is probably the fastest parasol in the world. Thanks to the smart Easy-Flap technology, the canopy opens out in seconds! When closed, it stands upright and takes up minimal space like a central pole parasol – once opened, it transforms into a cantilever parasol with optimal space utilisation and a unique design.

Frame

White RAL 9016, anthracite grey RAL 7016 or white aluminium RAL 9006, other RAL CLASSIC colours at surcharge

RAL 7016

RAL 9016

RAL 9006

Pole

Aluminium pole with a diameter of 60 x 60 mm and a wall thickness 4 mm

Fabric

Premium parasol fabric in more than 150 colours. 100% acrylic fabric, light-fast and weather-resistant

Struts

Double-Layer power struts
30 x 15 x 2 mm with strut
reinforcement

Your benefits

- Easy-Flap system for opening in just a few seconds
- Greater convenience with stainless steel rotary base rotatable by 360° (optional)
- Unique look and high-grade components

AMALFI

Elegant cantilever parasol

5 YEARS
WARRANTY*

Min. size
2 x 2 m
Max. size
3.5 x 3.5 m
Max. shading
12 m²

Min. size
2 x 3 m
Max. size
3 x 4 m
Max. shading
12 m²

Min. size
Ø 2.5 m
Max. size
Ø 4 m
Max. shading
12 m²

*5-year manufacturer warranty in accordance with www.caravita.eu/warranty

AMALFI

Elegant cantilever parasol

The Amalfi canopy sways freely, seemingly weightless. The pole of the parasol stands laterally, thus creating plenty of space for tables and chairs. While the sun may wander during the day, the shade remains exactly where it is needed. With the optional stainless steel rotary base, the Amalfi can be rotated 360° without having to move the base.

Struts

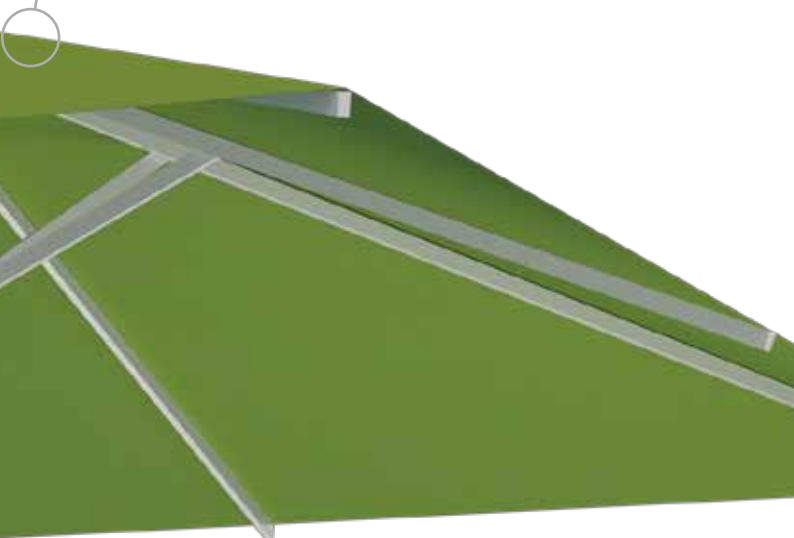

Double-Layer power struts
30 x 15 x 2 mm with strut
reinforcement

Pole

High-Power mast – 60 x 100 mm
and 4 mm wall thickness
(triple welded)

Fabric

Premium parasol fabric in more than 150 colours. 100% acrylic fabric, light-fast and weather-resistant

Frame

Choose from more than 200 RAL CLASSIC colours

Your benefits

- Flexibility thanks to the mast being pivotable by 360° (optional)
- Optionally available with two or four canopies
- Suitable for wall installation

SCALA

Function meets design

5 YEARS
WARRANTY*

Min. size
3.5 x 3.5 m

Max. size
4 x 4 m

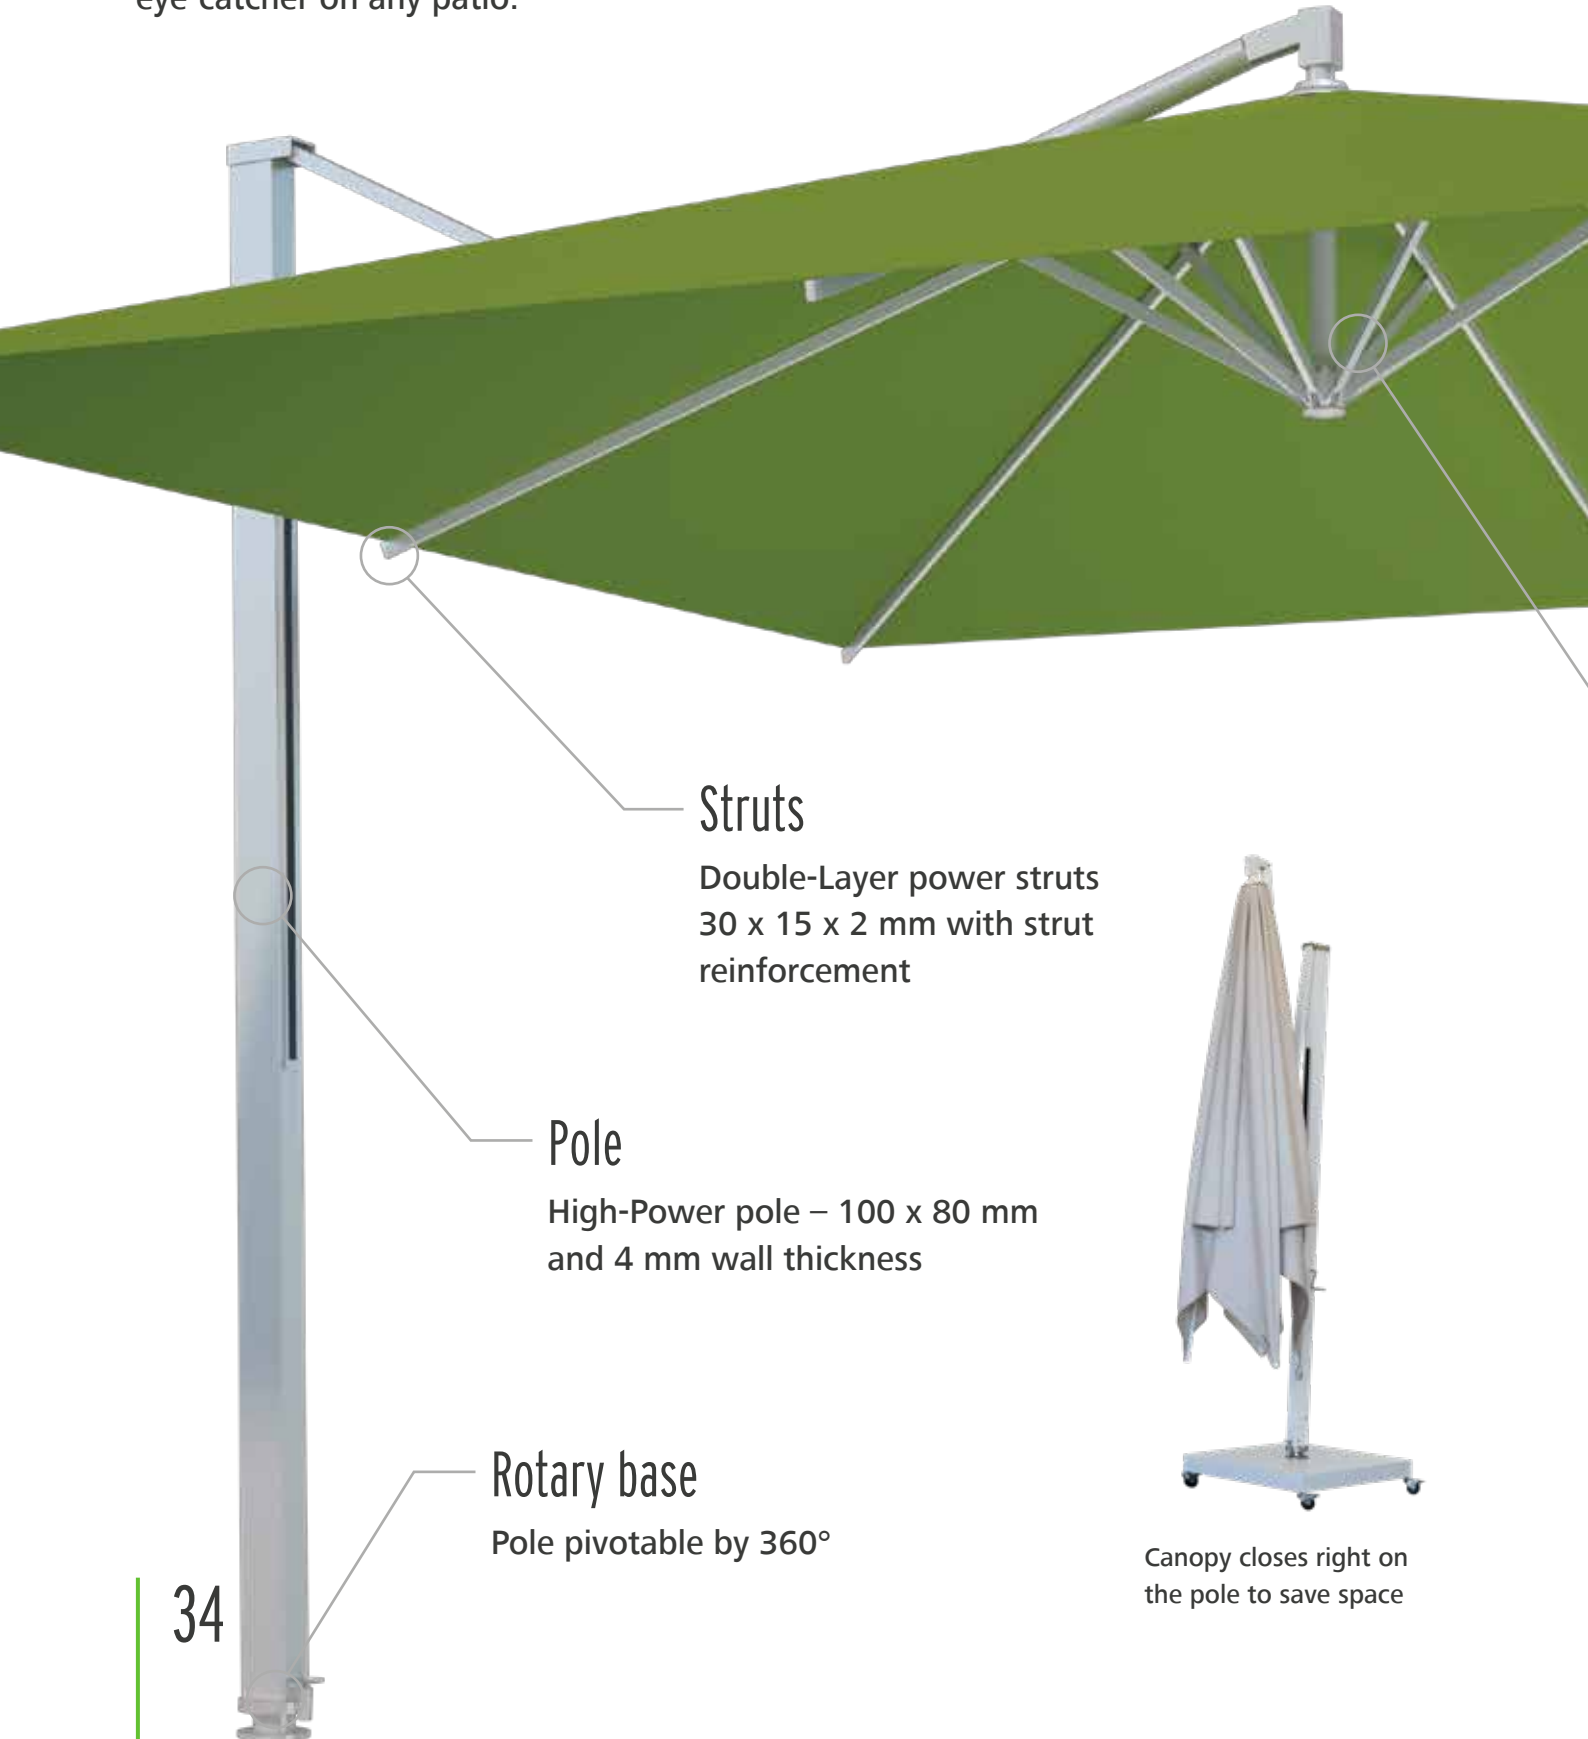

Max. shading
16 m²

*5-year manufacturer warranty in accordance with www.caravita.eu/warranty

SCALA

Function meets design

The elegant Scala cantilever parasol allows for extra flexibility and convenience, thanks to its integrated rotary base and the optional WMS radio motor. With a span of 4 m and its modern design, the Scala is a real eye-catcher on any patio.

Struts

Double-Layer power struts
30 x 15 x 2 mm with strut
reinforcement

Pole

High-Power pole – 100 x 80 mm
and 4 mm wall thickness

Rotary base

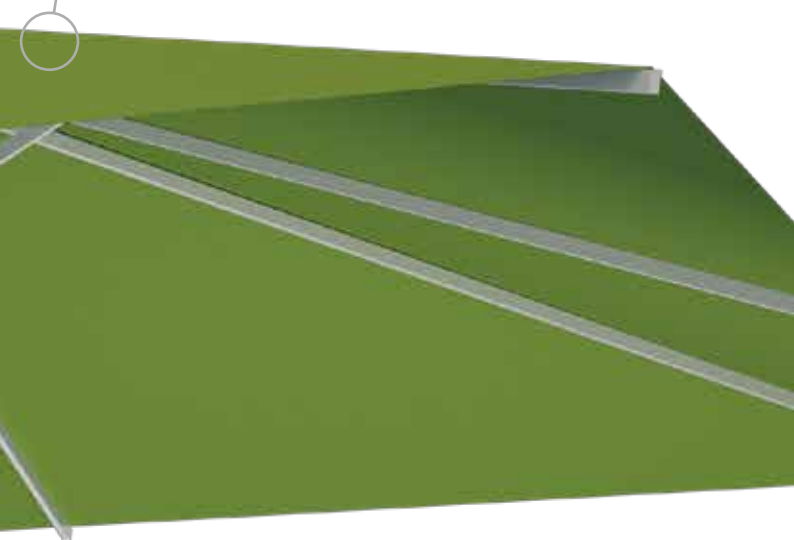

Pole pivotable by 360°

Canopy closes right on
the pole to save space

Fabric

Premium parasol fabric in more than 150 colours. 100% acrylic fabric, light-fast and weather-resistant

Frame

Choose from more than 200 RAL CLASSIC colours

Your benefits

- Flexibility thanks to the mast being pivotable by 360° (optional)
- Unique look and high-grade components
- Convenient operation via hand-held transmitter via WMS radio motor (optional)

SUMMERDAY

Flexible sun sail

Under the protection of the Summerday sun sail, you can enjoy the nicest days of the year even more. Relax and take a break in your favourite spot. Summerday stands out with its uncomplicated structure and high quality processing. It is available in a variety of standard sizes and shapes.

Click here for handy tips on designing your sail:

Pole

Optionally available with Ø50 mm aluminium pole (in white, anthracite grey or silver) or Ø57 mm stainless steel pole.

Fabric

Premium sail fabric available in more than 150 colours. 100% acrylic fabric, light-fast and weatherproof or water-permeable HDPE tent mesh fabric in 21 colours.

Your benefits

- Light and mobile
- Reinforced corners

ALL SEASON

Sun sail for all weather

Individual design

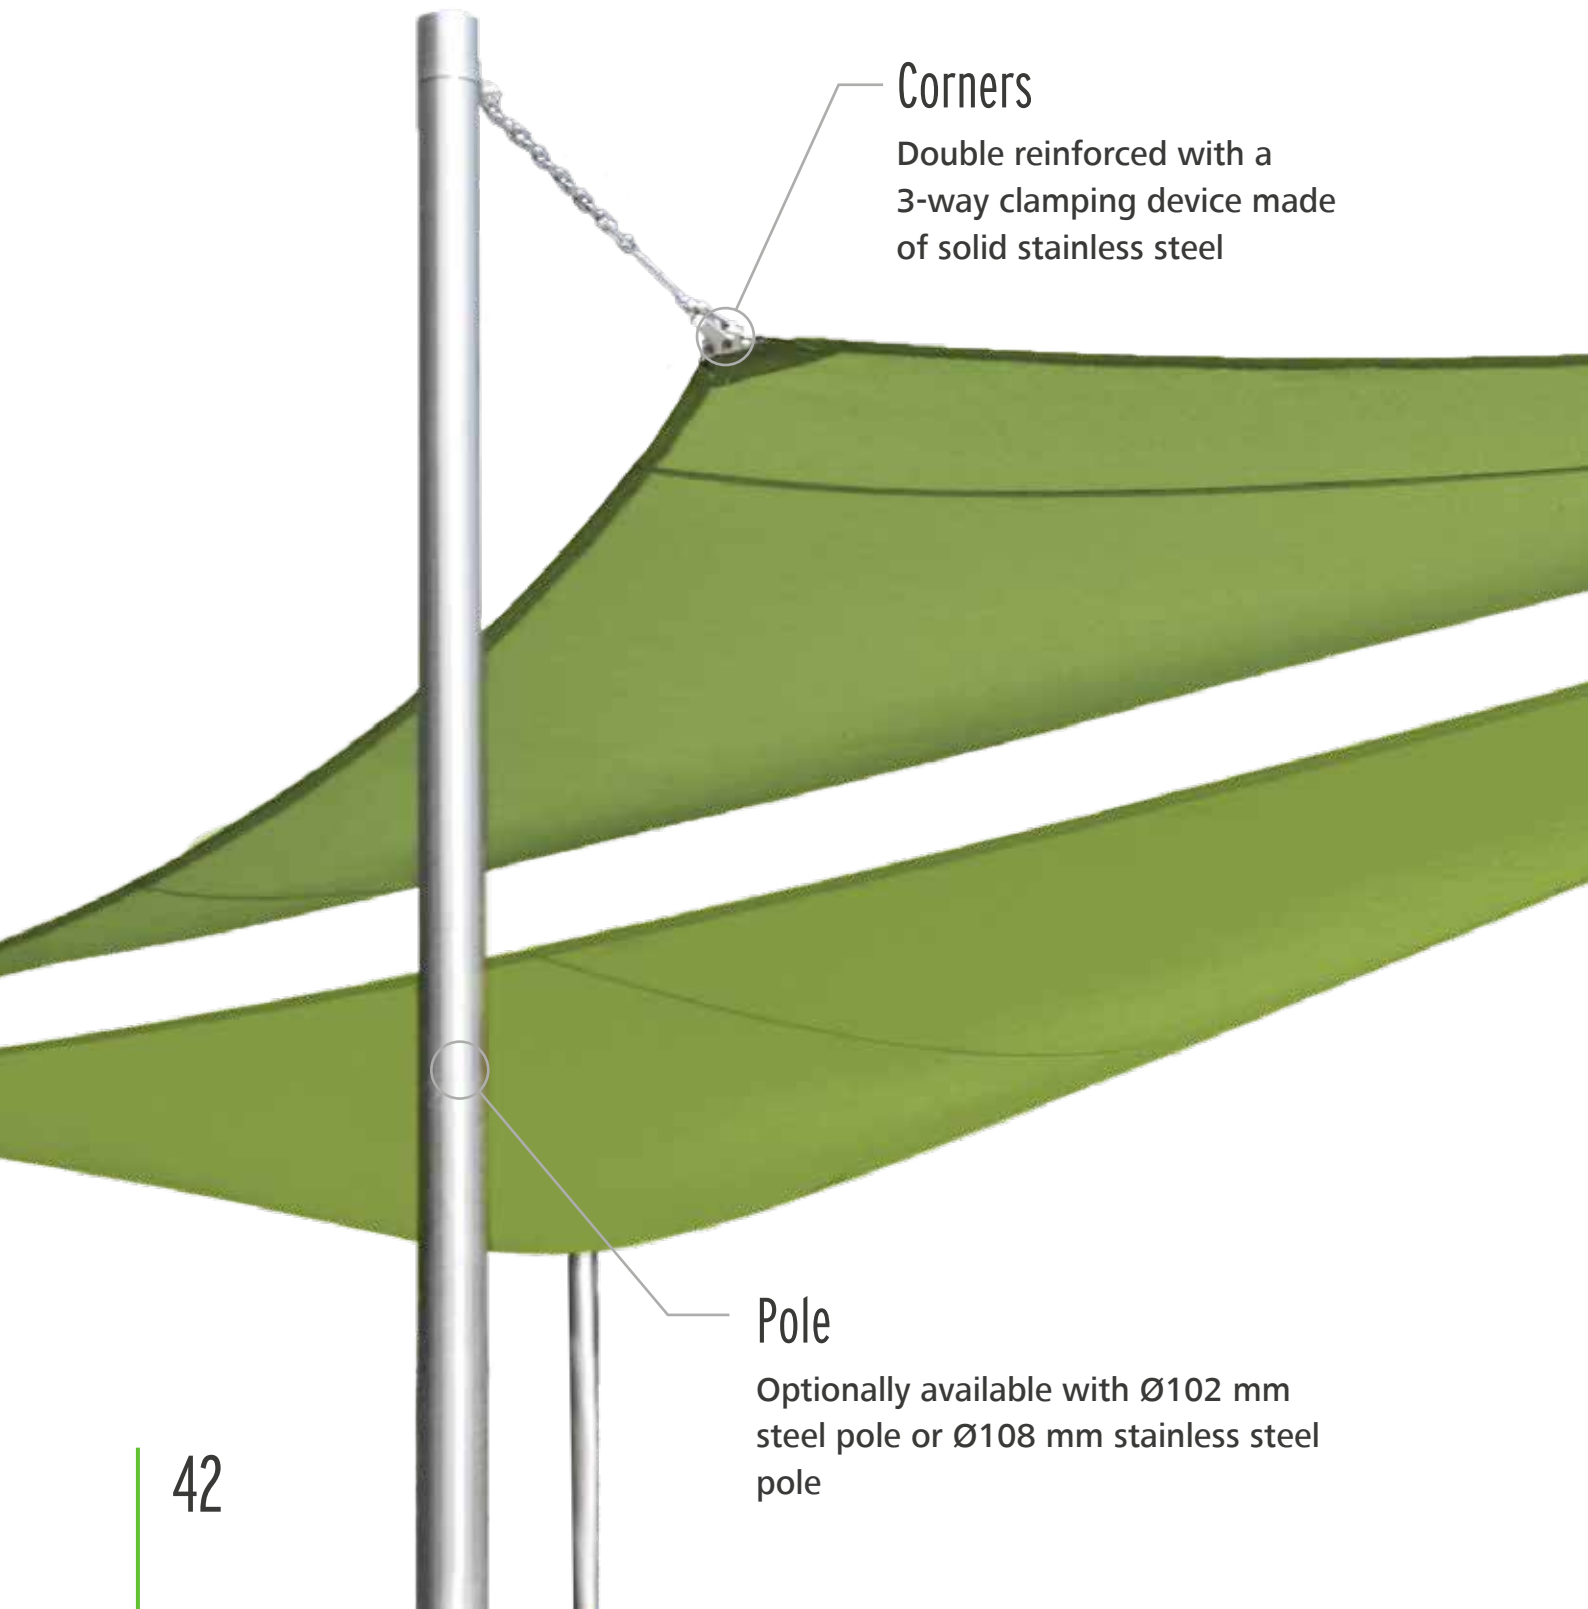

Max. size

75 m²

ALL SEASON

Sun sail for all weather

The All Season sun sail provides comfortable shading the whole year round. Thanks to its robust design it is also ideally suited for large areas. The storm-proof sail offers impressive wind and weather protection, and is individually manufactured to suit your requirements in terms of shape, colour and size.

Corners

Double reinforced with a 3-way clamping device made of solid stainless steel

Pole

Optionally available with Ø102 mm steel pole or Ø108 mm stainless steel pole

Fabric

Water-permeable HDPE tent mesh net fabric in 21 colours

Your benefits

- Individual shape and size based on your requirements
- Permanent installation (in places where it doesn't snow)

Accessories and more

A firm stand for your parasol

It is important to choose a parasol base carefully, to make sure it is positioned firmly and sturdily.

Despite the fact that high-grade CARAVITA parasol fabrics and frames are designed to withstand rather strong gusts of wind, any parasol will still need sufficient counterweight to keep it in place.

It is up to you, whether you would rather anchor your parasol to the ground or choose a mobile parasol base that will keep your sun shading product more flexible.

Find the right parasol base to suit your requirements.

Rain and weather protection

With CARAVITA, you can enjoy time outdoors even in rainy weather, on cold days and late at night.

CARAVITA offers many options to create your individually customised weather protection solution:

- Side panels
- Rain gutters
- Infrared radiant heater
- LED lighting

Find out more about our smart upgrades for an even longer summer.

Sun shading fabric that cleans the air

Acrylic ProNature is a special parasol fabric from CARAVITA that is optionally available as an impressive upgrade:

the coated fabric is just as robust and offers the same degree of UV protection as standard acrylic fabric, but it also cleans the air.

The special coating allows for photocatalysis that eliminates pollutants such as nitrogen oxides, sulphur oxides and organic substances. Just 4 m² of fabric will eliminate the NOx emissions of a passenger car with a mileage of 20,000 km/year.

Acryl
ProNature

Discover the 20 modern fabric colours of the ProNature collection.

Live parasol visualisation

Which fabric colour matches the wall of my house? Which parasol size will provide shading up to that corner even in the afternoon?

The CARAVITA Designer is a free app for iOS and Android that will help you to plan your parasol.

Augmented Reality technology enables you to easily configure the size and colours of BIG BEN and others, and to visualise them on your patio or balcony. Use shadow modelling for your parasol for any time of day or year. This way the CARAVITA app will help you to make sure that you select the right size and location for your sun shading product.

Download the app from the App Store or Play Store now.

How your parasol is made

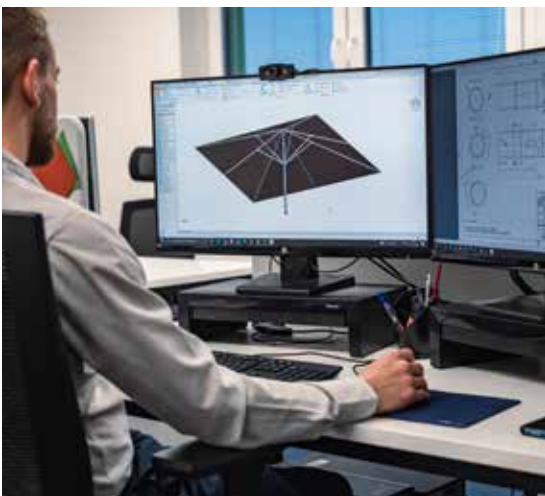

At CARAVITA, you don't get just any parasol, but rather a sturdy and individual shading system in professional quality. Made in Europe.

You have the choice of: size, colour, fabric design and convenient features such as radiant heaters, LED lighting, motor drive or intelligent automatic control. Each parasol is custom-made with quality craftsmanship according to your personal requirements. Your unique parasol is the product of over 30 years of experience in the industry, great passion and high-grade materials, allowing you to enjoy the best outdoor moments of the year.

01 Expert advice

Our regional partners are happy to help you select a model and colour, assemble the product and determine the structural requirements. All to ensure you purchase a sun shading system tailored to your individual needs.

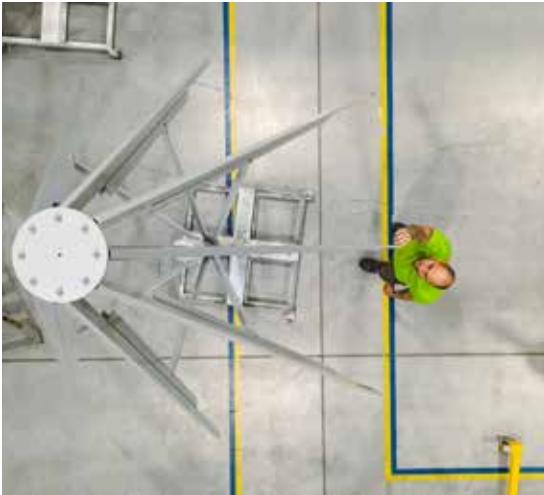

02 Placing an order with CARAVITA

Our technicians review the order placed with your local partner and create a production order in our production system. We then confirm the delivery date to your local partner to give them plenty of time to organise a date for assembly at the specified location.

03 Ready, set, go

Now it's time for production to begin. All the necessary materials first undergo a careful quality check by our incoming goods team. Only in this way can we make sure our aluminium components, fabrics and electrical components satisfy our strict quality criteria.

04 Precision and passion

Plenty of experience and knowledge goes into cutting the aluminium parts and coating them with one of the 200 colours available. While this is happening, the sturdy acrylic fibre fabric is cut with precision down to the millimetre and sewed. Then it's time for assembly, which equips the parasol pole with its inner workings, i.e. a crank and optional electrical extras.

05 Final look-over by a professional

Our experienced quality managers check every nook and cranny of each parasol. The parasol is only delivered to your local partner once it passes the final check with flying colours, meaning the parasol opens and closes easily without any noise and there are no scratches on the frame or fabric.
